

GlobalXperts Prolific I/O

Meet Prolific I/O by GlobalXperts! Powered by our partnership with AWS, this cutting-edge cloud migration solution slashes your costs by over 60%.

Why Choose GlobalXperts Prolific I/O?

Prolific I/O, by GlobalXperts, is a cloud migration solution designed to optimize your IT infrastructure through seamless AWS integration. It significantly reduces costs and enhances system performance.

Reduce TCO by ~70%

On-demand scaling provides the flexibility to adjust resources dynamically, ensuring optimal performance and cost-efficiency as business needs change.

Migrate High IOPS Workloads

Seamlessly transition workloads with high IOPS and TCO to AWS using Prolific I/O, ensuring continuity and performance.

Critical Applications

Specially tailored for Oracle Exadata solutions, Oracle RAC clusters, and MLOPS applications.

Enhance IOPS Levels

Achieve or surpass your current on-premise IOPS levels on AWS, enhancing overall system efficiency.

Benefits of Cloud Migration

Cost Efficiency

Cloud migration can significantly reduce costs related to purchasing, maintaining, and upgrading on-premise hardware and software infrastructure. Prolific I/O provides a cost-effective solution on AWS for volatile, high-IOPS workloads.

Disaster Recovery

Cloud services typically include robust backup and recovery solutions, ensuring data is safeguarded and can be quickly restored in the event of a disaster or data loss.

Transform the Way You Migrate

Discover Prolific I/O by GlobalXperts, your gateway to advanced cloud migration. Harnessing the power of AWS, this robust solution reduces your TCO by approximately 70% and optimizes resource use through on-demand scaling. Ideal for high IOPS workloads, Prolific I/O ensures your critical applications like Oracle Exadata and MLOPS are migrated smoothly and perform better on AWS. Embrace the future. Embrace GlobalXperts Prolific I/O.
